

Youth Motivational Maps Licensed Accreditation

Give them the skills and direction they need to truly develop and thrive.

**As a teacher or coach,
do you ever...**

...wonder how to engage underachieving students in learning that enables them to achieve their best?

...struggle to know how to develop self-esteem, self-awareness and resilience in young people?

...feel frustrated when a talented young person suddenly disengages and becomes uncooperative?

Understand What Motivates Young People

Motivation Declines if Left Untended.

Children are born with a tremendous amount of motivation, which helps them to grow and learn. However, as children progress through childhood and into adolescence, this motivation can reduce, resulting in disengagement, low confidence, lack of direction and uncooperative behaviour.

You Can Help With Youth Motivational Maps®

Designed by two former teachers, Youth Motivational Maps is a self-perception inventory (like Belbin), which enables young people to create higher achievement, wellbeing and confidence by aligning their direction, skills and motivation. This ISO-accredited and user-friendly tool, is used globally by teachers and coaches in schools of all sizes.

We're specialists at training and accrediting new Practitioners of both Adult and Youth Motivational Maps. We support over 150 Motivational Map Practitioners globally, and have trained most of these. Our Practitioners are IMPs (Internal Map Practitioners within organisations) or independent coaches, trainers and consultants.

By the end of the accreditation programme you will understand:

- How motivation influences achievement, career choice, mental health, resilience and relationships
- Our 9 primary motivators
- How to measure and boost motivation
- How to conduct conversations where young people feel heard
- How to conduct coaching conversations to create insights and student-led action
- How to engage underachieving students learning
- How to align learning methods to increase engagement and knowledge retention
- How to develop self-awareness and self-esteem
- How motivation influences our beliefs and behaviour

Course Content
